WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

October 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Cactus Smoke Shop (Fullstack Web App) – Fully integrated website on Shopify tailored for Smoke Shop company based in Mexico. I had the opportunity to work with a wide group of people that included designers, owners, and employees to better develop a website with all the applications that were requested.

Huevos Ah'Dio (Eggs Ah' Dio) - (Landing Web App) – Landing page for small producers in a rural area to find *and to be found* by customers/providers.

100Hours Project – (Jan. 2023 – Present)

Other Projects: Web App with NASA API integration, Other API Integrations such as Meme Generator, Prepare your favorite beverage, Reddit's Top Stocks mentioned on the day, and many more

Mayonesa Jiaki – Currently developing website for a new Mexico-based Mayonnaise that is launching this 2023. In this project so far I have used HTML/CSS, JS & Node.

Other Projects: Web App with NASA API integration, Other API Integrations such as Meme Generator, Prepare your favorite beverage, Reddit's Top Stocks mentioned on the day, and many more
